Dedication

It is our greatest pleasure to dedicate this Breeze Annual to Mr. Harrington. For twenty years he has given untiringly of his best efforts to promote the growth of child life and to better our system of education in the city of Albion. We regret that his years of service have been completed; and, we wish that the future will hold true joy in serving as an inspiration to the rest of us in our life's work.

Don Harrington

In Appreciation

To our class advisor, Miss Doris Reynolds, we, the class of 1939, wish to express our most sincere appreciation for her splendid cooperation and leadership at all times.

Miss Doris Reynolds

Foreword

The purpose of publishing this last issue is that we hope in future years it will help you recall many happy incidents of your past school life. After we receive our diplomas this June, it may be the last time everyone is together. Each of us will take a different road, prepare for a different vocation, and develop a new phase of living. Still the graduate will always have this book to glance through and it will suggest the happy years that have slipped away.

The Editor.

These trophies were won by the 1938-'39 football and basketball teams. The middle trophy is the one received for winning the Class B State Championship in basketball.

Administration

Board of Education

Seated: D. Harrington, Mrs. Hatch, Mrs. Miller, Mr. Dice.
Standing: Mr. Creager, Mr. Schumacher, Mr. Marsh.

A group that we hear so little about and who does so much, is the Board of Education. They are ever watchful in promoting the best interests of our schools. Besides the signing of bills, appropriating money, they deserve much credit for our present recreational program. We are proud to say that the School Board is composed of some of the finest citizens in Albion, and we wish to pay tribute to them now.

W. C. HARTON

Mr. Harton has been the guiding light for Albion High School students for eighteen years. Never once has he failed to give advice when he was asked or when he thought it was needed. He has lived in Albion for a long time and has seen many students come and go.

Another group of Seniors will be leaving this June. They wish to thank him for all the help he has extended to them during their six years of high school.

Mr. Harton attended Albion High School and received his A. B. degree from Albion College.

Jay Potter Murray, Jr.

By the death of Jay P. Murray, Jr., we lost an esteemed member of the senior class.

He would have completed his high school career on June 9, 1939, if his sad misfortune had not prevented him from doing so.

Jay was a true friend and will be missed greatly, not only by his classmates but also by his teachers. The memory of him will always be present in the hearts and minds of his family and friends.

Breeze Staff

The Breeze Staff for 1939 had the responsibilities not only of publishing the *Breeze*, but also of issuing a summary issue and several *Zephyrs* for school plays. Few people realize the effort these responsibilities require, but this staff has taken care of them to the best of its ability.

Besides collecting, arranging, and publishing the material, there is a large financial responsibility. This is taken care of with the aid of funds from the Student Council and proceeds from the Breeze Play.

The 1939 staff extends thanks to Miss Graves and Mr. McHold for their able assistance as journalistic and business advisors, and to all others who in any way helped to make the year a success.

Breeze Play

This year's Breeze Play *Petticoat Fever* centered around the tangled romance of four Britishers on a south sea island. After twisted romantic scenes and a dramatic wedding episode, the play ended satisfactorily to all. The profits were used to make a larger and better *Breeze* and summary issue.

Senior Student Council

In 1924 the High School Student Council was first established and for years following it has been the privilege of the students to select their class representatives to the council.

The council is under the supervision of Mr. Harton and has charge of the high school parties, football and basketball games, assemblies, and the general management of the programs that are to be presented in the high school.

Such programs as exchange assemblies, educational movies, and *The Welsh Imperial Singers* were presented by the council.

Two elected members from each home room consist of the membership for one year.

Business Club

The Business Club composed of advanced shorthand students was reorganized in 1937 with Miss Ribble as its advisor. The purpose of the club is to acquaint the members with modern business methods and practices. Club meetings held monthly consist of both business and social matters. A scavanger hunt and a pot luck supper were the outstanding social events of the year. At the beginning of the second semester, the club initiated 15 new members.

Seated: M. Neil, R. Oithoff, D. Hall, H. Harton, P. Grenier, J. Curtis.

Standing: W. Blackman, D. Overy, Mr. Cobb, F. Zerbe, J. Steele.

Debate Squad

During his first year at Albion High School, Mr. Cobb developed a Twin Valley championship team. The question, "Resolved: That the United States should form an alliance with Great Britain", demanded about eight hours a week from each debater, and it was debated fifty-four times by the squad. By virtue of the points won in debate and a second and two thirds in the speech contests, Albion received its first speech cup. This also is the first year that the squad has met as a regular class.

French Club

The French Club was first organized in 1928 to learn more about the country of France and to have more of a chance to use the language. The club was active every year until the 1937-1938 school year when its activities were carried on in the class. The club was reorganized last fall with the following officers: First semester president—Marian Keeler; second semester president—Helen Harton: vice president—Vera Gardner; secretary—Nan McNair; treasurer—Maryanna Baldwin.

Thespian Club

The National Thespian Club, now under the supervision of Miss Perkins, has been an organized club in the high school for ten years. It was founded by the cast of the Junior Ex. in 1929. The purpose was to promote the dramatic interests of the students.

Each year the club presents a play, and this year it gave *The Seven Sisters.*

It has been decided that the one-act Play Festival, started by last year's club, will become an annual affair.

The club is not a secret organization, and membership is given to those who participate in the high school plays.

Thespian Play

The Thespian Club play, *The Seven Sisters*, presented by Troupe 53 of the National Thespians, was a comedy adapted from *The Hungarian* by Edith Ellis. The character portrayals were given very well under the direction of Miss Perkins, making the play very successful.

The Choir

The Albion High School Choir, due to a great increase of members and the capable direction of Mr. Vosburgh, has proven to be an efficient musical organization. The Choir has worked hard this year and reached its goal when it participated in a successful Music Festival and an annual Spring Concert.

Seated: D. Sebastian, J. Carnell, M. Goodrich, B. Bushong, M. Neil, J. Steffey.

Standing: B. Slusser, N. Hull, S. Tuthill, R. Harrison, B. Maier, G. Baker, E. Smith.

Junior Exhibition

The Magistrate concerned the plight of Mrs. Agatha Posket who tried to deceive her second husband, Mr. Posket, as to her real age and the age of her son, Cis Farrington. This she did successfully until the appearance of one Colonel Lukyn who was at the christening of her son, acting the boy's godfather. After the usual lovemaking, quarreling and mix-ups, the play ended with the revealing of the real facts and the marriage of Cis to his music teacher, Beatie Tomlinson. An unusual feature of this production was the changing of scenery in full view of the audience. The play was directed by Mr. Cole.

Mr. Cole directed the production and proved again to be a splendid director.

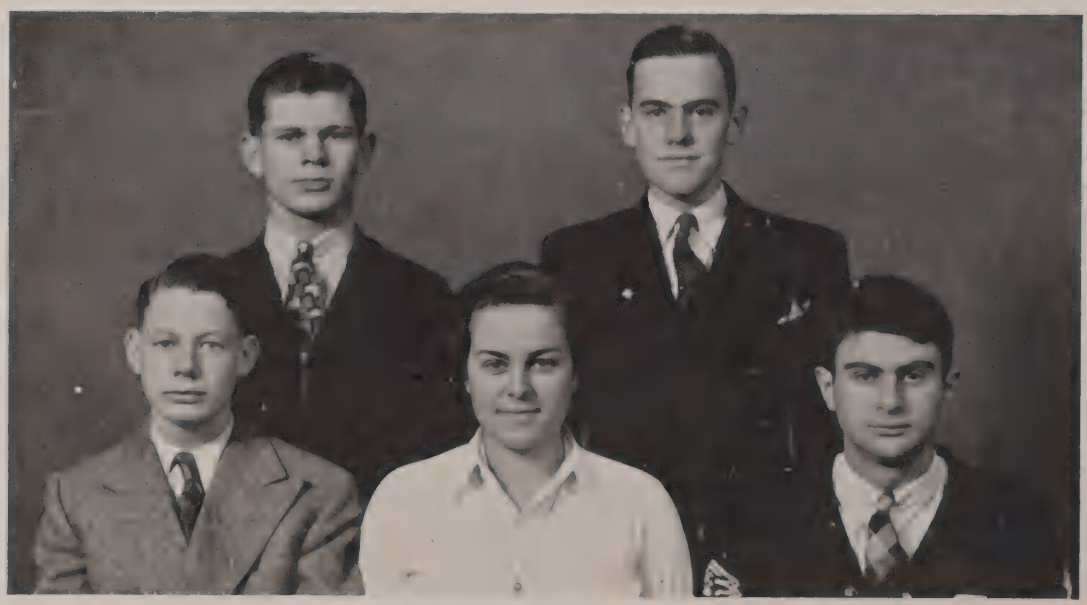

Athletics

Athletic Board

The Athletic Board of the High School is composed of 5 members of the Student Council, Superintendent Harrington, Coach Dorland, and Mr. Harton. This year the members from the Council are: Donald McAuliffe, Helen Ellerby, Billy Slowey, Bud Davis, and Louis Moon.

The board functions as a manager for all athletic enterprises undertaken in the school. It is this group that has charge of awarding the athletic "A's" each year.

Row 1: B. Davis, H. Ellerby, L. Moon.
Row 2: D. McAuliffe, B. Slowey.

"A" Club

In 1929 the very first meeting of the Girls' "A" Club was held. Today in its 10th year, it is still going strong and "getting better every year" according to its sponsor, Mrs. Noble. The purpose of the club is to interest girls in different types of athletics and games in which they can participate in their leisure time. Meetings are held twice a month, one for business, and one for social activities. The club also sponsors two dances a year, one formal and one informal.

Football

Winning the Twin Valley Championship and setting a new record by not losing a game are the accomplishments of our football team this year.

The most exciting game this year was the traditional game with Marshall when the Wildcats were unable to beat the Marshall team and which finished in a tie, 13-13.

Louis Moon and Daryl Kingsnorth were chosen on the All-Conference football team this year. For teams to come—may they all work for the same objective and win more championships.

Row 1: D. Scott, G. Howard, D. Kingsnorth, J. Ivanski, L. Kabel, M. Wilkinson, D. McAuliffe, U. Union.

Row 2: B. Slowey, C. Dixon, J. Manino, A. Egnatuk, V. Nesterenko, H. Parker, M. Dubina, V. Buinowski, B. Davis, Mr. Gray, Mr. Dorland.

Basketball

This basketball team finished first for the highest merit given in this sport. They won from all competitors in the tournaments to become State Class B Champions as well as Twin Valley Champions.

Much credit is due to Mr. Dorland and all the members of the team for bringing to our school such a high honor. This is the first time in basketball history that Albion has won the state championship.

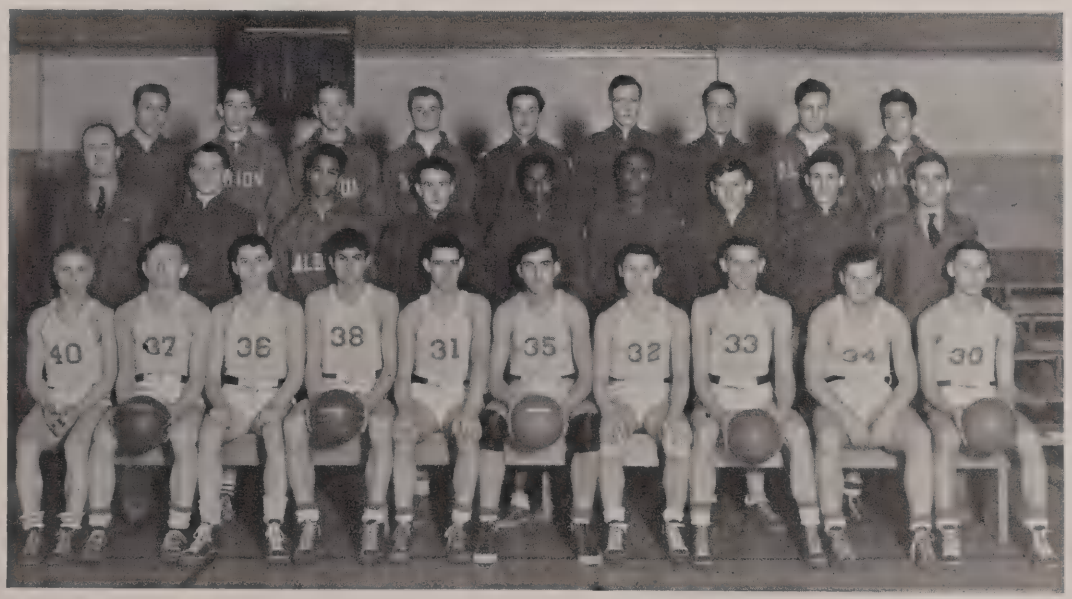

The Wildcats lost only one game which was to Sturgis. This game was one of the hardest games they played during the season.

Louis Moon and Victor Nesterenko were selected on the All-Conference team, an honor which they well deserved.

Row 1: G. Arnold, V. Buinowski, B. Lonergan, L. Moon, E. Amsden, R. Elushik, J. Veremay, M. Dubina, L. Kable, V. Nesterenko.

Row 3: A. Maksimchuck, E. Dunn, W. Grooms, E. McCoy, E. Konkle, D. Mason, O. Burns, K. Wolfe, W. Nesterenko.

Baseball

Again played by lack of batting and fielding power, Albion High School's baseball team did not fare so well during the 1939 season.

However, next year the team will be composed entirely of veterans and should go places under the competent coaching of Harry Williams, the newly appointed baseball coach.

Mascot—E. Neil

Seated: J. Veremay, W. Nesterenko, B. Abbott, G. Ketchum, J. Morgan, D. Hubbard, L. Kabel, L. Moon, B. Davis.

Row 2: O. Burns, R. Everett, K. Kolfe, G. Bundy, W. Shearer, C. Davidson, E. Dunn, R. Martin.

Track

The track team this year has been the best since it was revived in 1937. The Wildcats placed second in the All Twin Valley meet and received a trophy for placing second in the Interscholastic Meet held at Albion.

Much credit is due to Mr. Gray for the fine coaching and interest he has taken in the inexperienced fellows.

There were only two Albion fellows who set new records this year: Russel Elushik broke the Twin Valley record in the shot put and John Purdue out paced the Twin Valley record in the half mile to help Albion keep its splendid record in the Twin Valley standings. With new fellows coming up, Albion should be stronger next year than they were this year.

Seated on step—Manager R. Banks.

Albion High School Memories

Back to the grinding that ruins our summer career every September (school.) We know the teachers are just as thrilled to see us as we are to see them?? All of the "pleasingly plump" (fat to you) boys went out to bury themselves under each other—football. Of course we shall never forget about the Indian War Dance that was put on by our band on Armistice Day. Football ceased only to have basketball begin. In November came the Breeze Play which really "hit the jack-pot." A few weeks after the Breeze Play the school decided to give up a vacation 'cause we all believed in Santa Claus. To end up the vacation with a bang were the New Year's Eve parties which gave everyone an excuse for getting in late.

And of course, everyone was on time the first day back to school! After vacation, we only had to look forward to the reviews. Around the time of reviews there was good ice-skating—but everyone stayed home and studied (like nothing)! The recreation dances hadn't been going any too well, so, what did "Ham" do but get himself engaged. Well, then all of the girls got a bright idea that if they went to the dances perhaps they could get engaged too—but the Bonkers weren't up for sale! Since the engagement of "Ham" the dances have been a "Whiz" and everything is buzzing like my Christmas top.

The great dispute of Albion High appeared to

be the "A" Club-Hi-Y Assemblies. After much ? and discussing, the "A" Club was chosen to travel to Marshall. Whoopee, great joy, and such stuff —we are State Champs of Class B basketball teams. The boys either slept in a chicken coop while in Flint, or else, ate something besides eggs because some of them still have chicken feathers sticking out of their ears. For a while in Flint, the team couldn t find the trophy, but finally with the aid of Vic and Moon (I wonder why them?) it was restored to safe keeping. There were many celebrations for the boys, including one whole day of vacation for the entire school! The Sr. Carnival was more fun, too. Dutchy-Scotch-and everything—that's what they say about the haircuts all the Bonkers got. They are quite popular; but thus far the girls still hang on to their long curls.

Oh; 'most forgot to mention the "A" club-Hi-Y formal, that was a swell affair. Much to everyone's regret came the resignation of Mr. Harrington. During all of this, R. C. Neal journeyed to Texas and came back single! Soon some mysterious cards came through the mail to Bud Lonergan from California. All of these cards were signed, "Passionately yours, Jack. Who could it have been? About this time a new car was imported (from the junk pile) into Albion, all painted green and black with a hood over the back seat. This "Rolls-Royce" has stood in back of the house next to the Parker Inn for a couple of months now.

The Jr. Ex. was another hit of the year, especially the cupids, better known as "Angels With Dirty Faces" which appeared on the curtains used for the scenery. In the midst of this there were two epidemics, the flu and appendicitis. Practically everyone was pulled down by the flu and Mr. Baldwin and Mr. Cobb were the victims of the other. Say, it was at that time that Miss Graves mentioned sending her Lit. classes to Parma Tech (a new college), after they graduate from High School next year.

The Sr. High Banquet this year really created quite a sensation. Dr. Strong and his orchestra which is his career, now. He does his medicine practicing on the sidelines. Some time along here the valedictory and salutatory were announced and all of us found out just how smart we weren't By now the conference period was well acquainted with by everyone. It is liked very well and it gave all of the teachers (including Dr. Olthoff) a chance to catch up on their "reminiscing."

The Jr.-Sr Reception! Now that was a wow. We are so sorry to think of the Seniors not being here next year, but think of the class coming up to take its place. Here and now was the hit of spring "Hold Tight". I guess it was a day near the reception that R. Lackey came to school for a whole day! There was a day when Jr. Kingsnorth got his assignment in on time!—that makes history, for J. K. As you all know, there is always an Honor Banquet where everyone goes—but me! They give you good food, a slick program, and the honor of going. Finally the Srs. all march up to the front, get their diploma, and are graduated from dear ole Albion High.

We just hope that we will have just as much fun next year as we have had this year. All kidding aside, I'm sure we can.

Knowledge

To know the value of a bank account, from the standpoint of building character, for each individual, is knowledge each young person should acquire.

A bank account at once recommends to an employer the element of thrift, a desire to improve ones self, a frugal person—all of these qualities that are desirable in an employee. If you are expecting to obtain employment, consider this.

WELL DONE! This comment upon a skillful and successful effort carries a significance as deep as its simple sincerity; it voices an appreciation for excellence; we have grown accustomed to it with increasing appreciation; it is the terse compliment for which we, as individuals, work; a phrase which we, as an organization, *must* hear.

Heroines of Golden Deeds

We all enjoy adventure and excitement. Some of us delight in imagining many dangers that stir our feelings and make us eager and full of suspense. It may be nothing more than reading about criminal cases in the newspaper, just for a sensation; and it is a taste that becomes unwholesome when it delights in dwelling on morbid horrors and cruelties. Still, there is an element in such scenes of sorrow and violence that may account for our interest in them. It is this element that makes the eye gleam and the heart throb. Our feelings are moved by the courage and heart-break that has been endured. History has recorded such displays of brilliant valor, and has named them "Golden Deeds"—the truly priceless deeds that are the jewels of history, the salt of life.

What constitutes a Golden Deed? It is not mere strength and power. It is insensibility to danger, heart-breaking sacrifice, and voluntary action. There is a courage that delights in defying peril, which is not really a Golden Deed, but whose motive is mostly vanity. A Golden Deed must be carried out with a grave and resolute duty. Most of all, it is the spirit of this deed that gives itself for others — for the sake of religion, country, duty, kindred,—even for a stranger— the spirit of unselfishness. Lastly, it is the courage of overcoming many obstacles, and proving to the world that determination always wins. These are the characteristics of a Golden Deed.

Such was the spirit of the beautiful Rebecca, courageous heroine of Scott's **Ivanhoe.** As she was a Jewess, and of a despised race, her bravery and perseverence in overcoming this obstacle is recorded as a brilliant role in our literature. All through the long periods of suffering, toil, and sacrifice, Rebecca remained calm and patient; one lone figure in a cruel world of persecution. Her kindness and aid to others while awaiting the worst of oppression displayed her strong-minded character. Sir Walter Scott, the author of Ivanhoe, must have created this immortal character thinking to show the truly fine characteristics of a great heroine.

We have as great a heroine today as any created in literature. A woman who has lived her life in silence and darkness, Helen Keller. The obstacles that she has overcome are many more compared to Rebecca's. Years ago, Miss Keller made up her mind to learn to speak, and she was not satisfied until she had fulfilled her purpose and entered college. Her life has been a series of attempts to do whatever other people do, and do it as well. Her unwillingness to be beaten has developed her courage. Her success has been complete, for in trying to be like other people, she has come most fully to be herself.

Miss Keller does not see with her eyes, but through the inner faculty to serve for which eyes were given to us. True, her view of life is highly colored, and full of poetic exaggeration; the universe, as she sees it, is no doubt a little better than it really is. Inspired by her success in life, Miss Keller is establishing schools for deaf and blind children today. Her triumphs have inspired many people to success. Mark Twain once said that the two most interesting characters of the 19th century were Napoleon and Helen Keller.

Of course, Miss Keller is only one of many women in the world whose heroic efforts will always be remembered by mankind. There are others who have given their lives for great causes. Marie Curie, for science; Jane Addams, for education and slum clearance; Anna Howard Shaw, for temperance and woman suffrage; Julia Ward Howe, for women's rights and religion; and many more, who have each contributed something to the world in her own way.

However, I would not have you believe that only the truly famous people of today are the heroines. Everyone can be heroic in his own sphere; making others happy and solving each problem concerning the homelife of a family, the character building of the child, or even keeping within the family budget, takes all the courage, patience, and determination which alone constitutes the greatest of heroic deeds.

Sympathy and understanding, kindness and friendship, will help you to render the service. I wish that the world could feel with Walter Foss these words:

"I see from my house by the side of the road,
By the side of the highway of life,
The men who press with the ardor of hope,
The men who are faint with the strife.
But I turn not away from their smiles nor their tears,
Both parts of an infinite plan—
Let me live in a house by the side of the road
And be a friend to man.

If his philosophy could permeate every heart, we would all fulfill this high calling—the heroism of Golden Deeds.

New Frontiers for American Youth

The opening stanzas of Rudyard Kipling's poem "The Explorer" summarize excellently the youth problem today.

"There's no sense in going further—it's the edge of cultivation,
So they said and I believed it—
Till a voice as bad as Conscience rang interminable changes
On one everlasting whisper day and night repeated—so:
Something hidden—Go and find it. Go and look behind the Ranges—
Something lost behind the Ranges—Lost and waiting for you, Go!"

"There's no sense in going further." Does not this express the attitude of many youths and adults, who fail to see that there are new frontiers? Are you among those believing there are new frontiers for youth? "Something hidden—Go and find it" they are whispering. This last group has caught the vision of what may yet be done.

"New frontiers!" scoff the unbelievers. "How? Where? Why?" Listen and we shall see.

Because of our rapid progress and change of conditions new frontiers have been created. Harry Chase of New York University stated, "Ten million people are now employed in industries that scarcely existed at the turn of the century." Moreover, David Sarnoff, President of the Radio Corporation of America said, "Within five years every piece of radio equipment now on the market will be considered obsolete." This is not only true in radio work but in many other fields. Let me briefly review just a few of the smaller industries that offer advancement. For instance, auto mechanics are in demand. With over twenty five million cars in the world, much of the garage service is still unreliable. Concerning agriculture, it is evident that new things must and can be grown in the United States. A few years ago a tree furnishing oil which was used by paint manufacturers was grown exclusively in China. Now it is cultivated in Florida. There is chance for advancement in restaurant owning and the managing of hotels because of the poor quality of a great deal of restaurant food. Twenty-six hundred out-of-town customers from twelve different states send their clothing to one certain cleaning and dyeing establishment in a small city in New England simply because of their inadequate home town service. Certainly with the continuous growth of the airways in the last decade both pilots and mechanics are able to find new frontiers.

These are only a few of the different occupations which must be advanced. There are other fields to develop such as sanitation, refrigeration, religion, teaching, social service, and journalism.

A few years ago two industrious boys received their degrees from the University of Texas but were unable to find work. Finally they went to the Chamber of Commerce of that city and submitted a plan by which they would establish city hostesses to advise every new family moving into the community of the different stores selling commodities that they might wish to buy. The store of which the newcomer became a permanent customer would pay the boys ten dollars. This plan was very successful in the city. Soon an interested party from the East went to Texas to see the boys and succeeded in buying their idea so that he might operate the plan in states other than Texas. Here the founders held the exclusive rights. Now these city hostesses are well known in nearly every state, especially in the larger cities, because two boys decided that there was a frontier for them and they were determined to find it.

In Detroit, Michigan, a young man, father of a small child, had lost his job and was unable to find other work. All his spare time he continued to seek work but all in vain. Finally he remembered that he had always wished for some leisure time for an invention he had long had in mind. Immediately he started work and soon he produced his invention and patented it. All of this came about because of a determination to find a new frontier.

Let us not forget the thought of Henry A. Wallace's statement, "Economic Machinery operates on scarcity principles; our technology demands abundance."

Yet there are great numbers of people who fear for the future of youth. The other day a mother sat talking with a friend on this very problem. She said, "My oldest son has been looking for work for three years and he is more than disgusted. My heart did a flip-flop today when he said, 'Even a war would be better than this. It would at least give a fellow something to do.'" The friend advised courage and suggested that the boy seek the aid of various youth organizations and vocational guidance bureaus.

Ladies and gentlemen, this problem must be solved by establishing youth enterprises and furthering our present Christian organizations. The solution of this problem of youth's future is in itself a new frontier.

"Idle words!" do you say and add, "A full time job is what he wants offered him and not stuffy advice."

Ladies and gentlemen, to keep the mind busy with thoughts and activities that develop for the good is to keep youth from throwing away their good home training and from thinking that all is lost.

Already through the cooperation of individual communities and the newly established Division of Youth service an adequate program has been inducted that, in communities already tried, has become a great success.

Did you know that in Royal Oak, Michigan, for instance, a group was started under the title Youth Incorporated? Some young people worked out a program of education, service and recreation with the help of a popular Detroit Club. They entered the special field they were interested in and soon were presenting group programs for the community. In order to do something for "Youth Incorporated" the members of the Rotary and Kiwanis clubs are helping place these youths in the world. To show how well the city and organization cooperate, each Christmas they join together and make or repair toys for Christmas gifts for the more unfortunate of the community.

In Jackson Heights, New York, some youths organized under the guidance of a woman's club. As the result, groups interested in literature, music, drama, and current events, have been formed that have contributed constructively to the life of youth of that community.

Let me tell you about the the Job Finders Club in Cleveland, Ohio. A group of young unemployed boys meet regularly for their own amusement. All of them look for work by themselves, but when some one finds a vacancy that he cannot fill, he reports it back to the club. In this manner he not only knows he is being helped but also he has the satisfaction of knowing that he is helping some one else.

Again these are only a few of the countless number of programs working to create initiative and imagination in youth sufficient to discover new frontiers.

Are we all aware of the splendid work being done by the American Youth Congress? For instance, on July second to fifth, 1937, the fourth American Youth Congress met at Milwaukee, Wisconsin. The group arranged for a different meeting place when they discovered that in their original building, Negroes would not be admitted. They did not want race discrimination. Moreover, free beer offered by the breweries, was flatly refused. Practicable recommendations were submitted and speakers were heard on both sides of a pending question. This organization is another that gives youth courage to continue as well as have confidence in themselves so they will be able to find new frontiers and strive for the top.

Undoubtedly all of you have heard of the National Youth Administration which was established to administer a program of projects that would provide work and work experience for unemployed youth and assist them in obtaining an education. This organization operates in three divisions. It provides student aid by offering part-time employment to those who wish to continue their education. Also it establishes work projects and offers vocational assistance. This organization has given youth a high standard and a determination to find new frontiers.

All of these organizations mentioned besides such splendid groups as the Y. M. C. A.'s and Y. W. C. A.'s, Scout organizations and Church groups are helping youth become united and have a chance to receive community and adult guidance which is so essential to developing new frontiers.

There are new frontiers for youth, demanding those who are full of initiative, imagination and courage. Let us encourage and promote youth organizations so that youth can progress and discover these new frontiers.

"Something hidden. Go and find it.
Go and look behind the Ranges—
Something lost behind the Ranges
Lost and waiting for you, Go!"
